

### Sample A:

Hello! My name is Allen.

My topic is Traveling around the World.

Today I am going to talk about some famous landmarks around the world.

The first landmark is the Statue of Liberty. The Statue of Liberty is in the United States. It was a gift from the people of France. From the head of the statue, you can get a good look at New York City.

The second one is The Great Pyramid of Giza. The Great Pyramid of Giza is Khufu's tomb. It's very big and very old. The Great Sphinx is nearby. It has the body of a lion and the head of a man. You can ride camels there.

The third one is The Leaning Tower of Pisa. The Leaning Tower of Pisa is in Italy. Many people visit the tower every year. It has eight floors. Everyone likes to take funny photos at the tower. Look at my photo!

The Last one is Taipei 101. Taipei 101 is in Taiwan. It was the world's first building over 500 meters tall. There are beautiful fireworks from Taipei 101 on New Year's Eve. Lots of people go there to watch the fireworks show. When you stand on the floor, you can see lots of people as small as an ant.

Thank you for listening.
